

Manthan Raju Surkar

Founding & Lead Engineer – Backend, Applied AI & Infra

+91 9370162247 | manthan1674@gmail.com | surkar.in | [LinkedIn](#) | [GitHub](#) | [Blog](#)

EDUCATION

Indian Institute of Information Technology, Allahabad

2018 – 2022

Bachelor of Technology in Information Technology

CGPA: 9.41 / 10

- **Institute Silver Medal** in B.Tech Information Technology; **Gold Medal** for best performance in final year.

Hislop College

HSC (Maharashtra Board), 12th

95.53%

- **Ranked 1st** in both 11th and 12th grades.

EXPERIENCE

Lead & Founding Engineer

April 2024 – Present

[Seezo.io](#)

Bengaluru, India

- Lead AI research, backend, and infrastructure development from **scratch** ensuring reliability and quality.
- Built and optimized AI pipelines in Python, including **AI agents**, using **RAG**, evals, advanced search, and context engineering with Agno and LangChain. Built Enterprise-grade RBAC from scratch, and managed authentication across all major IDPs.
- Managed infrastructure across **AWS** and **Azure** using **Terraform**, supporting both on-prem and SaaS setups.
- Scaled engineering team from **1 to 7+**, managing hiring, mentoring, and technical direction.

Software Engineer

December 2023 – March 2024

[BharatX](#)

Bengaluru, India

- Reduced credit risk analysis costs by over **75%** through improved analytics and monitoring. Enhanced backend observability with Prometheus and Grafana across **5+ microservices**.
- Built a unified messaging layer for WhatsApp and SMS, reducing integration effort and maintenance overhead.

Senior Software Engineer

May 2021 – November 2023

[Razorpay](#)

Bengaluru, India

- Increased Auto-KYC coverage from **10%** to over **75%** by building and deploying CNN models for captcha solving and automating verification workflows.
- Contributed to the Account Service, one of Razorpay's core backend systems, decomposing a monolith into a high-performance service handling **10K+ RPS**.
- Received **top 1% employee rating** across all review cycles.

INDIE HACKING / PROJECTS

- **Bhava.app** – AI diagramming tool; **5th Product of the Day** on [Product Hunt](#). **2500+ users**, **30+ paying customers**.
- **Patra.app** – AI tool to manage Jira from Slack; **17th Product of the Day** on [Product Hunt](#).
- **Abha.page** – Color palette generator with live demo; **18th Product of the Day** on [Product Hunt](#).
- **Prana** – Chrome extension to track remaining time; **14th Product of the Day** on [Product Hunt](#).
- **Hostetic** – Web hosting platform built in college; scaled to **1000+ users**, later acquired. [Story](#).

OPEN SOURCE

- [Google Summer of Code](#) 2020 Contributor and Committer for [Apache Fineract](#); Mentor in 2021 and 2022. **100+ PRs merged**.
- Contributed to [phpMyAdmin](#), [OpenEMR](#), and [LangChain](#).
- **Slackify Markdown** – Published Python package with **2.5M+ downloads**.
- Smile in Pain sticker app – Open-source mobile app with **5K+ downloads**.

HACKATHONS & LEADERSHIP

- Won **10+ hackathons**, including ETHIndia, Smart India Hackathon, college and internal company hackathons.
- Overall Coordinator, Technical Society, IIIT Allahabad & Head of Web Development, Cultural Events at IIIT Allahabad.

SKILLS

Languages: Python, Go, Java, JavaScript/TypeScript | **AI/ML:** RAG, LLM, AI Agents, LangChain, Agno, CNN, Evals, Prompt Engineering | **Backend:** Microservices, REST APIs, gRPC, Event-Driven Architecture | **Infra/Data:** AWS, Azure, Terraform, Docker, Kubernetes, CI/CD, PostgreSQL, MySQL, Redis, Elasticsearch, Prometheus, Grafana
